timesvr & game ventures

Having worked with Shahzad on both a project and permanent basis, across two companies, I can safely say that he is a class act and a rare talent. He has a great eye for design and usability and is passionate about what he does, to boot. Grade-A new media person!

Shahzad Khan is a the youngest, most naturally talented artist with whom I've worked. Someone who is not afraid to take chances in fear of rejection, listens to his instinct, takes what others say into consideration in an impersonal fashion, and is persistent in perfecting his work are all qualities of a true artist. Shahzad has all these qualities and a true artist he is!

Agencies get helpless sometimes. The same happened with us in Sep 09', when our Creative Manager had to leave on a short notice. Overloaded with tons of work, Shahzad Khan proved to be a true savior.

Equipped with the craft that's much needed in every Creative Hotshop, his speed & superior aesthetic sense pulled us out of an absolute mess within a short contractual span of 3 days. Hats Off!
